

# AVERROES BUSINESS & TECHNOLOGY

## Averroes Business & Technology, LLC

### Capabilities Statement

#### Strategy – AI – Decision Intelligence – Technology Modernization

Averroes Business & Technology is a veteran-owned strategy and technology company that helps organizations modernize operations, improve decision-making, and accelerate enterprise transformation through AI, data intelligence, automation, cloud-enabled solutions, and technology modernization.

### Strategy & Technology Capabilities

- Enterprise Strategy & Transformation
- AI Strategy & Adoption
- Technology Modernization
- Data Intelligence & Governance
- IT Financial Management (TBM/Apptio)
- AI-Powered Organizational Diagnostics
- Cloud & Automation Solutions
- Federal Technology Advisory

### Differentiators

**Strategy + Technology Implementation:** Unlike traditional consulting firms, Averroes delivers both strategic advisory and AI-enabled technology implementation, enabling clients to translate strategy into measurable operational outcomes.

**Enterprise AI & Data Platform Expertise:** Averroes deploys advanced AI and data platforms using IBM watsonx.ai, watsonx.data, and watsonx.data intelligence to enable scalable AI adoption and enterprise data governance.

**Secure Automation for Federal Environments:** IBM watsonx Orchestrate is FedRAMP Moderate Authorized and deployed within AWS GovCloud, providing a secure environment designed for U.S. federal government workloads.

**Technology Investment Transparency:** Through IBM Apptio, Averroes helps organizations align technology spending with mission outcomes using Technology Business Management (TBM) and financial governance frameworks.
