AVERROES BUSINESS & TECHNOLOGY

SERVICE-DISABLED VETERAN-OWNED CERTIFIED

CAPABILITY STATEMENT

We build AI that thinks like your organization.

Domain-tuned · Mission-aligned · Deployment-ready

Strategy · AI · Decision Intelligence · Technology Modernization

COMPANY SNAPSHOT

Averroes Business & Technology, LLC

Founded: 2013 · CAGE: 9RQJ1 · UEI: MPV1H9UQKL15
5109 Portsmouth Rd, Fairfax, VA 22032 · averroesmc.com

NAICS: 541512 · 541611 · 541618 · 541612

✦ SBA SDVOSB Certified ✦ CMMC Level 1 (Self-Assessment)
✦ IBM Silver Partner ✦ FedRAMP Authorized ✦ GSA MAS · NASA SEWP V

WHO WE ARE

Averroes Business & Technology

We turn strategy into measurable results. Our team works inside client environments, aligning strategy, technology, and operations around the outcomes you answer for.

Our domain-specific AI platforms and decision intelligence help leaders decide faster and with better information. Our embedded Management Consultancy model makes sure those decisions get delivered, adopted, and measured.

CORE CAPABILITIES

- Enterprise Strategy & Transformation
- Domain-Specific AI Platform Development
- AI Strategy & Adoption Roadmaps
- Technology Modernization
- Data Intelligence & Governance
- IT Financial Management — TBM/Apptio
- AI-Powered Organizational Diagnostics
- Cloud & Automation Solutions
- Federal Technology Advisory
- SBIR/STTR Program Support

IBM TECHNOLOGY STACK

- watsonx.ai — Foundation model fine-tuning
- watsonx.data — AI-ready data architecture
- watsonx.data Intelligence — Governance
- watsonx Orchestrate — FedRAMP Moderate
- IBM Apptio — TBM & cost transparency
- IBM Cloud for Government — FedRAMP High
- IBM Business Automation & RPA
- IBM Planning Analytics

WHAT SETS US APART

Five Differentiators

01 Strategy That Ships
One team from advisory to deployment. Your strategy ends up as working AI in production, not a report you file away.

02 AI That Knows Your Mission
Models tuned to your operational data, regulatory history, and institutional expertise, so your teams get answers they can trust and act on.

03 Pilot to Production, Governed
We deploy IBM watsonx.ai, watsonx.data, and watsonx Orchestrate at enterprise scale, with auditable AI that holds up well past the pilot.

04 Faster Path to ATO
IBM Cloud for Government FedRAMP High and an existing ATO at DOE's Argonne National Laboratory take 12–18 months off federal security timelines.

05 Embedded Until It Works
We work inside your environment, alongside your teams, until adoption sticks and the results show up in your numbers.

WE SERVE BOTH SECTORS

Commercial & Public Sector Value

COMMERCIAL	PUBLIC SECTOR
▪ **Accelerate AI adoption** Move from strategy to deployed platform in weeks, not years	▪ **Mission-aligned AI platforms** AI that understands agency data, regulations, and operations
▪ **Unlock institutional knowledge** Capture expert knowledge before it walks out the door	▪ **Immediate procurement access** Buy now through TD Synnex on GSA MAS and NASA SEWP V, with 80% ABT workshare
▪ **Decision intelligence at scale** Decisions grounded in your own data and workflows	▪ **Federal-grade security baseline** Deploy 12–18 months sooner on IBM Cloud for Gov FedRAMP High with the Argonne ATO
▪ **Technology investment clarity** See what every tech dollar delivers with IBM Apptio TBM	▪ **SBIR/STTR innovation track** Direct Phase I eligibility lets you prove value with R&D funding before a production contract
▪ **Automation that fits your process** Cut manual work with watsonx Orchestrate and RPA built around your workflows	▪ **SDVOSB set-aside advantage** Set-aside access that also counts toward agency SDVOSB goals
